

A large, abstract watercolor splash in various shades of red and pink, covering the lower two-thirds of the page. The colors are soft and blended, creating a textured, artistic effect.

My Bible

Study Journal

Journaling Guide

Introduction

There's nothing like God's Word.

It's reviving, refreshing and renewing.

Whether you're engaging in a Bible reading plan, reading a book of the Bible at a time or a scripture a day, whatever your format of reading, you're increasing your intimacy with the Lord.

Reading the Bible is like cold water on a hot summer day. One sip isn't enough; you need more and in fact, crave more. The Word is precious, incorruptible seed that's designed to change us from the inside out revealing the thoughts and intents of the heart.

If you're looking to be more purposeful with your Bible reading time, or find you need to jot down what God is revealing to your heart as you're reading, this Bible Study Journal is the perfect compliment and easy to use!

How To Use

READING

Slowly, thoughtfully, read God's Word. Read the passage(s) more than once. Write down the Bible passage(s) you read.

REFLECTION

What word, phrase or verse sticks out to you? Write it down.

Why do you think this passage stood out to you?

Is there a word you need to dig into? To define and get to the root of to understand more fully?

Is there a command to obey?

Is there a promise to claim?

Is there a sin to avoid?

Is there a lesson to learn?

Is there a new truth to carry?

REVELATION

Write out a few sentences what you believe God is saying to you personally.

What is He revealing about His heart to you concerning His nature, His character and good plans for you?

RESPONSE

How will you respond? Write a prayer in response to what the Lord revealed to you through His Word. Thank Him for speaking to you and what this Word means to you.

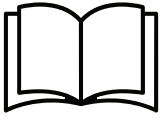

A NOTE ON PRINTING & SHARING

Print all sheets, including as many as you need of the journal itself (the following sheet). Hole punch or bind altogether as it suits your needs. Please do not share file with others. You may share the direct link with others. Thank you.
